How Do I Order and What Do I Get?

You can receive your issues in the mail, download them from our website, or both. Each month, we send every subscriber a password by email. The password provides access to a special Web page where you can download your newsletter in PDF format, as well as all the updates, bug fixes, and other software we've collected for you.

If you pay for an **Electronic subscription**, you'll download all your issues from our website.

If you pay for a **Mailed subscription**, you'll also receive a printed copy of our newsletter each month. In addition, every quarter you'll receive a **CD** that contains all the software we posted on our website during the previous three months. On the day we go to press, we'll also email a password to you so that you can get your newsletter from our website in PDF format.

Either way, we guarantee you'll save far more money than the cost of your subscription. In fact, if you don't, we'll give you **your money back** — Just give us a call for a refund!

YES! I want more time to be creative!

My name: _____

Company: _____

Address: _____

City: _____ State/Prov.: _____
